

CARBON NEUTRAL COMPANY

PVF Mesh & Screen Technology GmbH supports the following UN goals for sustainable development:

PVF Mesh & Screen Technology GmbH

Participant ID: DE-2812-0228

Valid until: 28.02.2022

This certificate guarantees that the reported quantity of 111 tons CO₂ has been calculated according to Greenhouse Gas Protocol Standard. The resulting emissions have been saved in Gold Standard tested climate projects.

PVF Mesh & Screen Technology GmbH has acquired shares (certificates) in climate protection projects corresponding to the calculated volume of CO₂ and therefore plays a transparent part in the realisation of the projects. This ensures that the company compensates for its own CO₂ emissions, and thus scales back the rise in global warming.

The projects have been certified, and the issue and closure of the certificates is registered transparently.

PVF Mesh & Screen Technology GmbH is therefore a voluntary participant in emissions trading, and thus makes a contribution to maintaining a viable environment by reducing the emissions of greenhouse gases. The holder of this certificate makes a sustainable contribution to the commitment to tackle global warming.

Frank Huschka
