

„Trust is a silence in chaos“
Andrea Gerlach

At the end of this special year, we pause for a moment and look back. We look back on a time full of challenges that demanded a lot of flexibility from all of us and, in some places, a rethinking. But we also look back on the great trust of our customers who have become our partners in these times, more than ever before. The reliability of our supply chains, our intuition for your individual needs and the realization of joint projects are our proof of your trust in PVF Mesh & Screen Technology GmbH.

For this we would like to thank you from the bottom of our hearts and wish you and your families a peaceful, relaxing and, above all, healthy Christmas.

A SWEET GREETING FROM OUR PVF BEE'S

In November 2020, we managed to compensate for the CO² emissions we cause through internal company rethinking, but also through certificates in environmental protection projects identified by us.

To promote regional biodiversity, we have given four bee colonies a new home on our company premises. By planting a wide variety of trees and wildflowers together, we support the bees in their daily work and are rewarded with delicious honey for our loyal customers.

TRADE FAIR'S

We are very much looking forward to a personal meeting with you at the following trade fairs:

FILTECH 2022
